

DELANEY *Blue*

NAPA VALLEY SAUVIGNON BLANC

DELANEY *Blue* is a young, vibrant and complex white wine inspired by a girl with the same exciting qualities. Like Delaney, many young people are diagnosed with Type 1 Diabetes. This wine was created to link the enjoyment of LIFE with our desire to help researchers find a cure for T1D.

FLAVOR:

DELANEY BLUE is a Vibrant and Complex wine crafted from Napa Valley grapes. This Sauvignon Blanc has an alluring aroma of Meyer lemon zest and tropical fruits with a refreshing palate of grapefruit, nectarine and lemongrass. Bright with a long, clean finish.

PAIR AND ENJOY:

This crisp, non-oaky Sauvignon Blanc is a versatile food partner as well as the perfect aperitif. It's one of the few wines that pair with green vegetables such as asparagus or artichokes. Seafood? That's a natural. Try with shrimp kabobs, grilled sea bass and oysters.

VINEYARD NOTES:

Our Napa Valley Sauvignon Blanc was hand harvested at night once brix levels hit 23° to assure balanced sugar and acidity while bolstering the grapes' delicate aromatics. Once the fruit arrived at the winery, it was cold fermented in stainless steel tanks (58°F) to enhance the natural citrus notes.

VARIETALS: 100 % Sauvignon Blanc

ORIGIN: Napa Valley

ALCOHOL CONTENT: 13.5%

A PORTION OF THE PROCEEDS FROM THE SALE OF THIS WINE WILL BE DONATED TO DIABETES RESEARCH.
